Art, colour and design at your feet

COLORS Series

Your fashion colour, both outside and inside the shower tray.

Our Step and Surface Colours shower trays are designed to give the bathroom the colours our customers dream of. We have all the colours in the RAL chart, the equivalent of the fashionable Pantone colour chart, available just for you.

Solid Syntech® Technology

Our trays are manufactured using our **Solid Syntech** material as a base, a **Solid Surface** material made of a high-performance polyester resin and a high-finesse and high-purity non-mineral synthetic charge called ATH (aluminium trihydroxide), resulting in shower trays that combine a pleasant touch with easy maintenance and high resistance. It should also be noted that all our trays are repairable.

Step (sizes)

A (Length): 120, 130, 140, 150, 160, 170, 180 cm.
